

Canadian Limousin Association Yearling Data Instructions

1. Animal Data

Submission of weaning data to the CLA prompts the yearling data forms to print with applicable information pre-printed. Please complete the record for the calf.

Reg No	Animal Name	Tattoo	Tag	Sex	Weaning CG	320 days on	Optimal Window		410 days on
							Open	Close	

This information will be pre-filled in, please ensure that all information is correct and make any adjustments or notes as needed.

Animal Name – if this animal has not been previously registered and you would like to do so at this time enter a name for the animal, maximum 25 characters.

2. Yearling Information

Complete the yearling information for the calf, next to the applicable animal information.

Yearling											
Premise/Pasture	CG	Feed Code	Date	Wt	Sex	Temper	Hip	SC	Pelvic Hgt	Pelvic Width	Disposal

Premise/Pasture – enter the management group of the calf. Calves that are managed together and have had equal opportunity to perform should be grouped together. Grouping is critical to accurate genetic evaluation.

Contemporary Group (CG) – enter the group of the animal if applicable. For example if you keep your first calf heifers separate, enter these as group 1 and your mature cows as group 2.

Feed Code – enter a code for the feed the animal has been on (pasture, creep, bucket fed, etc.)

Date – the date the yearling data was gathered

Weight (Wt) – weight of the animal at the time yearling data gathered

Sex – should automatically generate, if a male animal indicate if it was steered at this time

Temper – enter the corresponding number of the animal’s temper at time yearling data gathered

- 1 = Docile, 2 = Restless, 3 = Nervous, 4 = Flighty, 5 = Aggressive, 6 = Very Aggressive

Hip – enter the hip height in inches

Scrotal (SC) – enter scrotal measurements as applicable. It is important that the same technician record the scrotal measurements for all bulls reported so there are no inconsistencies

Pelvic Height (Hgt) – enter pelvic height in inches

Pelvic Width – enter pelvic width in inches

Disposal - if animal was sold, culled, or died enter the appropriate disposal code

3. Signatures

Please ensure that any required signatures are completed at the bottom of each applicable page.

Applicant – the signature of the owners who may be applying for registration on a calf are required.

Return completed forms to the CLA office at:

#13, 4101 – 19th St NE

Calgary, AB

T2E 7C4

Canadian Limousin Association Yearling Data Instructions

IMPORTANT NOTES:

OPTIONAL DATA – All data is optional. In order to register an animal, it is required to submit information such as name, colour, and horn status as determined by the CLA by-laws and the Animal Pedigree Act. If you choose to submit information such as weaning weight, then it should be submitted on ALL animals. In order to be included in the genetic evaluation (EPDs) all animals must have weigh date, weight, creep weeks (if creep fed) and management group completed. Gussed weights are not appropriate.

In order to ensure the accuracy of data entry and enhance the ability of the staff to investigate concerns, all forms will remain on file in the CLA office. Forms will not be returned. Therefore, it is strongly advised that you make photocopies of the completed forms for your records. Please review pre-printed information for accuracy and make any required corrections.

In order for your data to be included in the summer EPD evaluation, it must be received by the CLA office no later than June 1st annually.
